

# Job Description

## Systems Administrator for Oregon Country Fair

---

Oregon Country Fair needs *systems administrators* to assist with our online event operations in 2021. We have computers to run! They're on the internet!

Our current technology endeavours include

- Web servers
- Application servers
- RTMP relays for media
- AWS infrastructure
- Mozilla HUBs
- Wordpress
- ProcessWire CMS
- Peertube

We're also experimenting with other tools to help bring our 2021 events alive!

Ideally, you

- Are comfortable on the command line
- Know Linux reasonably well
- Have experience administrating server infrastructure
- Are flexible when it comes to learning how to administer new applications

Extra wonderful would be if you

- Know AWS really well
  - Bonus points if you can edit Cloud Formation Templates!
- Have experience with OBS and and/or similar tools for streaming

Thank you for your interest!
